

## Move Forward

Flame

You know, sometimes you've gotta move back  
In order to move forward, 1921, same stuff going back then  
November 23rd, it's crazy, same stuff going on then  
Yeah boy, it's the truth right here boy  
Yeah boy, all the stuff we've been through boy  
Yeah boy, we always pull through boy  
Yeah boy, yeah boy, man talk that talk, turn up

They drew a line in the sand  
And they told us stand on that side  
Now they've started a new trend  
And the fans gotta decide  
Youngin's were looking for a model  
Now I don't think they're looking no more  
Now it's like to each his own  
The moment's gone about to undergo  
The kind a change we don't wanna see  
See the sane people change to the wannabes  
Cause they are living for what people think  
And they don't see the link  
Between their influence and who these youngin's want to be  
But still we got the faithful, refusing to be shaken  
Cause they don't value the public opinion as a priority  
Enough to compromise and make the message as watery  
As necessary even though we're the minority  
In order to move forward without deviating  
In a situation we're looking a J. Gresham Machen  
Probably never heard of him, I know his name's strange  
But what he contributed was a game changer  
Christians were compromising with liberalism, and the modernism  
Man it was embarrassing  
But Machen was bold, and he brought clarity  
And he put his neck on the line and his popularity

[Hook - Jai:]  
I'm hoping you see  
That we've been here before  
And they think that we keep going too far  
But we remember your word  
As we move forward  
We might suffer now, but we'll get our crown

Sometimes, I take them to class boy, yeah boy  
We can learn from the past boy  
Yeah boy, church we just gotta hold fast boy  
Yeah boy, man talk that talk, turn up  
See ain't it crazy how history repeated  
Now we find ourselves in the same place  
Dealing with the liberalism  
That tempted the Christians to compromise in the same ways  
See the culture says it was enlightened through modern science  
Now our knowledge was heightened with new information  
Reshaping our conscious  
Now we live autonomously to our liking (wow)  
And this shook the church up  
Now some Christians panicking and tryin' to keep up  
In order to be down they're hanging some things up

Some essential Christian doctrines have gotta get cut  
Sound familiar? Liberalism expanded  
It's not only religious, the secularism advances (facts)  
They stand firm in their convictions (facts)  
They even function like a secular religion  
Putting pressure to redefine what marriage is  
Certain things should only happen in the marriage bed  
Between a woman and a man it's so discouraging  
But we gonna stand on the word, cause it's inerrant man  
We know the end, so we ain't gonna fear though  
Just keep showing love even though they think that we the weirdos  
We know the end, so we ain't gonna fear though  
Just keep speaking truth even though they think that we the weirdos

[Hook - Jai:]

I'm hoping you see  
That we've been here before  
And they think that we keep going too far  
But we remember your Word  
As we move forward  
We might suffer now, but we'll get our crown

[Isiah Williams:]

And what that does, it freezes from fear. Your ministries are moving into a time of cultural tumult and you're going to be afraid. Some of you are going to be so afraid, that you are going to want to negotiate away parts of the gospel. But the gospel defines us in such a way, that we are able to see ourselves as the people of God within that cross, so that we know that the worst thing that can possibly happen to us is not being beheaded by jihadists. The worst thing that can happen to you is being abandoned to your sin, being cursed by God, being crucified outside the camp - and that has already happened to you
