

# War Of The Minds

Flame

Sometimes I feel like Moses man I just want to run to Midian  
just to change my state but not the state where my city's in  
but my state of mind  
look for a sign like Gideon  
cause my faith is wavering I'm forsaking dependence again  
you took me from Egypt just to make me a leader  
but like Moses I'm not an eloquent speaker  
I'm not eloquent either  
not before nor after you've spoken  
me in ministry you've gotta be jokin'  
I feel like Jeremiah  
here are my bones Lord and here is my fire  
I'm inadequate to represent the messiah  
call me the weepin' rapper  
I read a chapter then I'm heapin' up laughter  
because I'm weak and I can see the disaster of me in ministry  
I feel Job I curse the day of my birth  
since I was born its only payin' me hurt  
my insecurities worse  
sometimes I wish that that night was barren  
either that or Lord send me an Aaron

This song is for you my sisters and brothers who strugglin' with depression  
not just the blues but a struggle with depression  
maybe it's clinical and got you taking medicine  
or maybe not but you taking counseling session and  
that's excellent  
take your medicine  
if you need it cause this is pleasin' to Jesus  
I write this song for the schizophrenic  
who only gets left alone and throne in a hospital only to panic  
and whose family doesn't understand  
so they treat you like an animal but never would the Son of Man  
for those who ask what's going inside of me  
who feels bound by fear bound by anxiety  
I write to you because I know the  
very God who's in control of bipolar  
I write to those who wrestle with thoughts of suicide  
don't do it cause Jesus loves you for you He died

For every tear that you cry for all of the wars in your mind and the fears t  
hat you hide know that He's there know that He's walking with you I know tha  
t it's hard to press on when the nights seem so long remember His word is yo  
ur hope so know that He cares know that He's walking with you

The core problem is that Adam sinned  
and since then to now its 8 out of 10  
women and men and children who struggle with depression  
especially house wives and preachers they're people who struggle with depres  
sion  
I write this song for that introverted  
insecure person that's training his thoughts into thinking he's worthless  
God made you  
God can save you  
in everything you can give Him worship  
you're not worthless  
Lord I pray for the mentally ill

that in your ministry you mentally heal  
those who suffer with it  
if not now then you eventually will heal your children that are mentally ill  
for now they suffer with it  
give us the strength just deal with your will  
because we sinners and we wrestle with it  
just like Job did it  
I write this song for those who were sexually abused  
lookin' for weaponry to use seek Jesus

[Hook]
