I'm in dirty white denim, she telling me that it's cream  
Thousand dollar leather, teeth that gleam (beam)  
(Join the regime)  
Whole sheet of LSD for the team  
Eyes low, sour dies', she sippin' that Jeremy Lean  
He is I, I am him  
Old grim with the tilted brim  
Hold up, hold up, you don't do drugs?  
What's that mean? "More for us!"  
If I said I wasn't high, I'd be lying  
What's that smell, what's that smell  
Think that's my brain cells fryin'  
Nappy dreadlocks, looking like a lion  
Possessed by the highest, the LSD diet  
You fuckers should try it, that OE  
My genes blend so good with the chronic
