## Flesh-N-Bone

Ah, somebody say he shouldn't say a stuff like that  
(Flesh -N- Bone 5th dog style)  
Well, we all say a stuff like that  
Here, the problem is a lot of people think that  
God don't know what's going on in the world here  
Do you know some, some attention! attention!! listen attention  
They asked some students in a major eastern university  
This trues talk  
They asked Coastal maiden eastern university  
The question was  
Do you think that God understands raggae?

And the overwhelming majority of these students said no  
God doesn't understand raggae  
There was blindness in menace
