

Beautiful

Flickerstick

You could be the devil in my bed
You could be the angel in my head
You could be the voices that I hear
I'm singing along because it sounds just like you're near
Cause you're so beautiful
You're beautiful today
You're so beautiful
Beautiful in every little way
Cause when you're coming around
I'm off the ground
I've got to say
You're so beautiful
You're beautiful today

I could be the drug you can't resist
I could be the antidote you missed
I could be the love you hate to fear
You're filling the hole inside your heart with feeling near to
me

Cause you're so beautiful
You're beautiful today
You're so beautiful
Beautiful in every little way
Cause when you're coming around
I'm off the ground
I've got to say
You're so beautiful
You're beautiful today

Can we make it through
Together we got to fly
Don't you know I got to fly
Cause when you're coming around I got to fly
Don't you know I want to fly

And I know
And I feel
That I could learn to hate just like you
And I know
And I feel
That you could learn to love just like me

Can we make it through together
I've got to fly
