If You Really Love Me

Flipsyde

Every day I hope it seems to change
Nothing 'bout us ever stays the same
I know you think I'm bad
I don't love you but I won't leave you, it's okay
'Cause all the little things you do
Show me no one's better than you
So I work hard to show how much I want you

Baby, when I feel like I'm alone
That's when you call me on the telephone
It's something that was hard to see
But when you came to me, your love set me free

So you want to know (know), if I really love you (love you)
I throw my arms around you (I'll never let you go) yeah, and show you
 for sure
'Cause I want to know (know), do you really love me (love me)
'Cause if you really love me (love me, I want to know) yeah, I wanna
know

I ain't ever been the one to waste time
My love for you is deeper than the baseline
My middle name's written on your waistline
Taught me how to slow it down, take time
Appreciating everything you ever gave
Silence means more than you could ever say
And everybody got a mission or a path
Let the roads cross, you are lying in bed

It's all one love, hold one, sold one, go
You really love someone then you got to let it show
You really love someone then you got to let it go
In this life or the next, you're to pass that test

Sometimes I wonder if you love me
For someone who's the better man than me
Tomorrow's never guaranteed
So I choose to believe in, give you what you need girl

So you want to know (if I) (know), if I really love you (love you)
I throw my arms around you (I'll never let you go) yeah, and show you
 for sure
'Cause I want to know (know), do you really love me (love me)
'Cause if you really love me (love me, I want to know) yeah, I wanna
know

So you want to know, if I really love you
I throw my arms around you, yeah, and show you for sure
So you want to know (know), if I really love you (love you)
I throw my arms around you (I'll never let you go) yeah, and show you
 for sure
'Cause I want to know (know), do you really love me (love me)

'Cause if you really love me (love me, I want to know) yeah, I wanna
know

'Cause if you really love me (love me, I want to know) yeah, I wanna
know
