

Alcoholic

Floater

Very soon now...
Something will crack

Something will crack

Alcoholic

Yeah

"...hey, dammit..."

Sipping from my bottle of wine
Sinking into my death
Television picking at a piece of my brain
And the next door neighbor thinks I'm insane
I'm sinking into my death...
I'm sinking

And in the end
Just like the crowd
When I go up
But they come down
And it's a fine life
That I lead
Ooh, satisfaction guaranteed
When I'm drunk
And when I drown
I'd like to f*ck
But then come down

Sinking wisdom I look for friendship
But I find none
Sinking into my death

Wonder if it's something like the way they treat me...?
Motherf*cker better not come out and beat me...

I'm sinking into my death...
I'm sinking

This sickening sin
My only home...
Is not enough
Just to die alone...
But is a symptom
Of my disease
Stiff and restless
So hard to please

What would you plan
When you come down
If no one wanted you around?
Yeah
Sipping from my bottle of wine
Sinking into my death
Television picking at a piece of my brain
Next door neighbor thinks I'm insane

I'm sinking into my death...

Help

And in the end
Just like a crowd...
When I go up
And they come down
And it's a fine life
That I lead
Satisfaction guaranteed

When I'm drunk
And when I drown
I'd like to f*ck
But then come down
