

In America

Floater

The fastest runner sets the pace, in America.
Then watch his money win the race, in America.
And they put greatness in your head, in America.
Then beat you blue and red, just like America!

They're gonna put you in your place, in America.
They will tell you to your face, in America.
They'll buy all that you can sell, in America.
To own a little piece of Hell, in America!

So cover your eys, and cover your heart, and pray
For the ones, your tearing apart, and deep in the night,
You dream of a T.V. show.

You can beat them by a mile, in America.
You'll be laughing all the while, in America.
They don't care how you do it, in America.
Just do it style and a smile!

So cover your eys, and cover your heart, and pray
For the ones, your tearing apart, and deep in the night,
You dream of a T.V. show.

We are all here to look over the edge.
And then we fall in, and then we fall in,
Fall in, fall in, fall in, fall in, fall in!

So cover your eys, and cover your heart, and pray
For the ones, your tearing apart, and deep in the night,
You dream of a T.V. show.
