

The Simplest Way of Life

Floater

It's the simplest way of Life. It's a delicate way to die. It's
a hell of a way to go, wouldn't you say?
It's the devil behind you eyes. It's all the passionate things
he tries
It's like the feeling before the plane touches down
Something breaks that was holding you back and anger takes on a
seminal role
Something breaks that was holding you back and
Under that black sunlight you spread. You spread. You spread
No, don't complicate. It's easy baby, give it a try
Let's get one thing straight; nobody laughs if nobody cries
I could never speak those words. You know that they would set m
y tongue aflame
I could never think those thoughts. You know that they would se
t my neck to the blade
But I'll tell you baby, this little lamb is taking comfort any
way he can
This little lamb is set to take down the lion and feast on the
man

You know, I got a little shack where the powerless live, but I
can never forget all that I've learned to forgive
As the satellites watch all your troubles in bed, the pain in y
our heart goes straight to your head
And something breaks that was holding you back, and anger takes
on a seminal role
And something breaks that was holding you back and
Under that black sunlight you spread. You spread. You spread
No, don't complicate. It's easy baby, give it a try
Let's get one thing straight; nobody laughs if nobody cries
I could never speak those words. You know that they would set m
y tongue aflame
I could never think those thoughts. You know that they would se
t my neck to the blade
But I'll tell you baby, this little lamb is taking comfort any
way he can
This little lamb is set to take down the lion and feast on the
man
