

Been a long time  
You were born one day you were gonna die  
Oh...  
When ya' clocked in, can't remember what you've forgotten  
So...  
Let me tell you how it is here  
To exist here living on this sphere  
Hey...  
There was something called emotion  
And sensation  
And they feel this way  
You can build and play  
You can lie and scheme  
And while your children say  
Pretty much anything  
Others will arise,  
Colors will become cold  
And they call this time  
And it makes you old  
It accelerates slowly, then faster  
Then before you know  
There is someone to look after  
Share laughter  
And of course you grow  
Be aware you can hurt them  
They can hurt you  
It can make you scream  
And understand you're a person  
Give birth to new ways to dream

And it's not just you  
We are all about  
And we feel it too  
And we're called a crowd  
And we have the tools  
So we sing aloud  
And we stand up  
And we all fall down

Ahh la da da la da da ba da  
Ahh la da da la da da le la da da da da  
Ahh la da da la da da - la ba da da da  
Ahh la da da la da da ba da

The road is done  
We had our fun  
And so it ends much like it begun  
With a gun shot brightness  
Noise I'm frightened I'm fighting  
Then the silence hits  
I collect recollections  
And echoed reflections of moments of loyalty  
And defection and measure my essence  
A servant or despot, storm or a tempest  
Word or a sentence, was I heard or never mentioned  
And did I hurt whenever men shunned me  
Or another in an instance ruling by inches

A student of illness to see where the real went  
Grown the strength to deal with the feeling of new skin  
Just as the noose was loosened I let go and saw the two ends  
Felt the weight lift of these heavy feet and realized I could have been anything

The road is done  
We had our fun  
And so it ends much like it begun  
The road is done  
We had our fun  
And so it ends much like it begun  
And it's not just you  
We are all about  
And we feel it too  
And we're called a crowd  
And we have the tools  
So we sing aloud  
And we stand up  
And we all fall down

Fall-ah da da la da da ba da  
Ahh la da da la da da le la da da da da  
Ahh la da da la da da - ba da da da  
Ahh la da da la da da - ba da  
Ahh la da da la da da la da  
Ahh la da da la da da la la la la  
Ahh la da da la da da - ba da da da  
Ahh la da da la da da ba da
