

# The Effect

## Flobots

It's the F-L-O-B-O-T-S  
What did you expect?  
You wanted us to move you right to left  
Live and direct...

Butterfly wing flap whole thing change  
One look two different book same page  
Front on the range but the beat's contagion  
Stuck to your feet for 3, 4 days

It's real too real like film projectors  
Bend the letters  
To find the nectar  
It is effective  
It will protect ya  
From them spectres  
Don't let 'em get ya

How'd they escape the rat race?  
How'd he make that sound with that bass?  
The roof is ablaze so break the glass case  
Song so big affect the tax base

Don't drink the potion  
Split the ocean  
Holy moses  
Pharaoh's forces  
Let my people go with purpose  
Turn the tide with forward motion

How does it feel to unglue?  
Where do you think we've come to?  
What does it take to follow through?  
Who is it making you move?

Heavens to murgatroyd  
The situations purgatory  
Brer Rabbit's stories  
Burn categories  
The allegory is Adam's story  
On the eve of something glorious  
Us against them  
Won't bust the system  
But trust the pistons  
The engines misspent  
Our thrust is intense  
Combustive intent

Boom Jonny 5 better yet Juan Cinco  
Rhetoric rep for my Colorado lingo  
Whatever preterit's wet by my ink flow  
Is spelled out B4 (Bingo!)  
Get it?  
Because I Never Get Outwitted  
Bold-faced type all capped like a fitted  
Make ya move even if you're arthritic  
Something that you thought I wouldn't do, I did it!

How does it feel to unglue?  
Where do you think we've come to?  
What does it take to follow through?  
Who is it making you move?

It's the F-L-O-B-O-T-S  
What did you expect?  
You wanted us to move you right to left  
Live and direct...

It's a quilombo!  
With Kenny O on the drum roll  
We rocket like Dikembe Mutombo  
Djembe to bongo to MPC  
We unload and win MVP  
So let's be old fashioned  
Put the beat on blast  
And leave a lil' something like a geocache  
And if anybody wanna smurf wif me  
We can take this to the nursery  
Like hickory dickory rhyme so slippery

This emcee that emcee  
Wish they could switch currencies like a battery  
Disbelieve flattery  
Realistically it can just be a smattering  
To sit and watch the needle peak with Mario C  
Reppin CO and 303  
Speak up girl even if it's what's they're against  
Do the Hellen Keller and confront male arrogance
