

Had you been told before  
What I said the other night  
I assume you always are  
You know that I have never been  
Attracted to the normal kind of girl  
And once again  
I'm right  
I guess i should've known before  
To never look them in the eyes  
Without focusing out far  
Truth will come around some day  
When i am going through some kind of blindness  
That fills up my sides

I need to learn  
To speak effective  
I should have made  
A love connection  
You chance is gone  
It will never come again  
Oh no no no again

I know you've seen it all before  
Pasted on the every kind  
The one who thinks he'll be a star  
Truth is i have always been  
Distracted by the soul  
That lurks in me  
And once again  
I'm right

I need to learn  
To be productive  
Avoiding ways  
Self-destructive  
My chance is here  
I will never sin again  
Oh no no no  
Again!!  
Again!!  
Again!!  
Again.....
