

# Forever In A Daze

Flying Colors

Watch you walk into the room so smooth  
And it cuts me like a diamond  
A spiritual reaction ensues  
And you're tryin' hard to fight it

Your eyes are echoing my name  
Calling me to your castle  
And we begin to magnetize  
Drawing ever closer

I'm your fire  
You're a fortress  
You turn me into a thousand horses  
You're my heartbeat  
My beautiful dream  
You don't even know my name and you got me  
Loving you forever in a daze  
Enveloped in liquid air  
You're holding hostage every stare  
Sealing up every escape  
For your love, I will give my life  
To the venomous viper  
I'll turn your soiled dress to white  
And get you ready for the morning

I'm your fire  
You're a fortress  
You turn me into a thousand horses  
You're my heartbeat  
My beautiful dream  
You don't even know my name and you got me  
Loving you forever in a daze

Thank you for the gift  
Of giving me a lift  
Like a space cartoon  
You take me to the moon  
Give me just one day  
And I will free your mind  
Take your lined up faith  
And throw it outta time

I'm your fire  
You're a fortress  
You turn me into a thousand horses  
You're my heartbeat  
My beautiful dream  
You don't even know my name and you got me

You don't even know my name and you got me  
Loving you forever in a daze
