

## So Close

Flying Pickets

There is a better way to live our lives  
And I must find it if I can  
But when I speak of change you look at me strange  
Sometimes you just don't understand

So close yet so far  
So close yet it's au revoir  
So close but it's not the way it seems  
So close but dreaming different dreams

I always try to tell you where I came from  
What I believe and who I am  
I just can't see how we could ever agree  
We always end where we began

So close yet so far  
So close yet it's au revoir  
So close but it's not the way it seems  
So close but dreaming different dreams

I don't believe in the things you believe I can't stay  
tonight  
Can't compromise we must say our goodbyes the feeling  
isn't right  
Although we are far apart I know we've been close  
It won't be easy to forget  
Our world is upside down and when it's turned round  
I won't deny that once we met

So close yet so far  
So close yet it's au revoir  
So close but it's not the way it seems  
So close but dreaming different dreams
