

All For Love

Flymore

So in the end take my hand
You know what to do So take me
So everyday I do pray
You dont give a fuck
(And its not for love)
Not for love
Its all for lady i'd like despise
Because of love
It happened under my very eyes

So my face set No regrets
I know what to do So stay back
Stop! Stay away I will stay
I dont give a fuck
(Its not for love)

Oh my god it is strange to catch
your sight again
To forget you took so long, so long
Still keep calling
all the time feel hollow
Let me breath again i can't
get you out of mind
