

# Looking for You

Foghat

I'm on a tightrope but never look back  
Too many things that seem to distract  
I'm on the ocean but I never dive in  
Too many reasons don't know where to begin

But it just beats bumming around  
Keeps my feet on the ground - Looking for you

I'm on a mountain but I never look down  
Too many times that I feel like a clown  
I'm in a jungle but it feels like L.A.  
Another time, another place, another day

But it just keeps foolin' around  
It keeps my feet on the ground - Looking for you

{instrumental}

I know I was wrong to let you go - Tell me something  
Tell me you still want to know - Tell me so

I'm in the city but I don't walk around  
Too many faces bringing me down  
I hit the street searching high searching low  
Too many places but nowhere to go

But it just beats messing around  
It keeps my feet on the ground - Looking for you  
I keep looking for you
