

# Mean Voodoo Woman

Foghat

Just a shy boy from the country with trembling knees  
He hit the big city with a wild curiosity  
Then he met the Voodoo woman made his blood boil a thousand degrees  
And now she's got him on the run hiding out, crying, begging, "please"

And now that mean voodoo woman won't let me be  
Mean voodoo woman got her hooks in me  
Blind to her mission so I can't see  
Mean voodoo woman wrote my history

Played all the cards so she'd end up owning my soul  
And ran all the numbers left me helpless spinning out of control  
Then she granted all my wishes said she'd take me from a pawn to a king  
But she left me in a trance then she played me like a toy on a string

And now that mean voodoo woman won't let me be  
Mean voodoo woman got her hooks in me  
I'm blind to her mission 'cause I can't see

Started when she ran her fingers up and down my spine  
Knew that I was hooked the moment that she caught my eye  
Took me in her room - now I know that I'll never return  
And now I'm left feeling helpless all I got is the lesson I learned, yeah

{instrumental}

I finally made up my mind so tired of the misery  
I took a chance, slipped away at the first opportunity  
Yeah I thought it would be easy but my luck ran out can't you see  
Once she's got you in her grasp then you know that you'd never be free

Mean voodoo woman won't let me be  
Mean voodoo woman got her hooks in me  
Blind to her mission so I can't see  
Mean voodoo woman wrote my history...
