

## Needle & Spoon

Foghat

Some of 'em wise men, some of 'em fools  
But I need a little something to keep my cool  
I sleep with the sun and I rise with the moon  
But I feel alright with my needle and spoon  
I feel alright with my needle and spoon

It's difficult sometimes to get my stuff  
So if I'm evil don't get in a huff  
I sleep with the sun and I rise with the moon  
But I feel alright with my needle and spoon  
I feel alright with my needle and spoon

I don't need no women don't need no wine  
'Cause life is sweet when you hit the main line  
I sleep with the sun and I rise with the moon  
But I, I feel alright with my needle and spoon  
I feel alright with my needle and spoon

Only one thing that worries my mind  
The stuff that kills it seems unkind  
If you're married you can divorce your wife  
But when you're married to H then you're married for life  
Married to H then you're married for life
