

The Way She Moves

Forever the Sickest Kids

It's getting late your eyes are closed and mine are wide awake
(But still!)
I can never go on I can never go on like
(Just like!)
I'm begging just to see your eyes again
I can never go on (I can never go on)

Should I even care that she didn't say anything
Tried to do my best by giving her things
Like rings.. and roses..

Remember to reply when I hint the message
I try to smell my best with a bottle of acids
Get to the point, style and romance
And I could never go on I could never go on

The way she moves away oh
I wanted her to stay awhile don't go home away oh
The way she moves away oh
I wanted her to stay awhile don't go home
Away oh whoa

Shes showing signs of motion as she wipes the sleep away
I can get through this I can get through this ride
You gotta give a little but it takes a lot to get over you
Cause it makes no sense to be permanent if I can't feel, right right right

The way she moves away oh
I wanted her to stay awhile don't go home away oh
The way she moves away oh
I wanted her to stay awhile don't go home
Away oh whoa

It's a terrible thing to know what you want
And to know you can't have it at all
I all I wanted was to let you know how I..
It's a terrible thing
It's a terrible it's a terrible thing
Ohhh
A terrible terrible thing
oh no!

The way she moves away oh
I wanted her to stay awhile don't go home away oh
The way she moves away oh
I wanted her to stay awhile don't go home
Away oh whoa

The way she moves,
the way she moves,
the way she moves,
the way she moves,
the way she moves,
the way she moves.
