

All I See

Four Star Mary

Blank walls in another empty room
Windows with no view
Another life that's gone too soon
These days have fallen into grey
And people rarely say
What they really want to say
But come with me....

Cause all i see is colours
Pouring over, down on everything
All i see is colours
Pouring over, down all over me

Come along i want you near me
Youre gonna see the lights that blind me
And you wont hide from anything
I want to make you part of me
I want to wake you from this sleep
I want to give you everything

All i see is colours
Pouring over, down on everything
All i see is colours
Pouring over, down all over me

Lights fade, but it's ok
Im not scared of this bed ive made
Were gonna stop the hands of time
And tear them up, tear them up, tear them up

All i see is colours.....
(etc)
