

## Never Mind

Four Star Mary

You could send me a saviour  
That lives 'til the end of time  
Promise the heavens  
But that only leaves me dry  
too many saviours  
Fuck with me  
I won't die  
I've never cried  
But I needed more from you  
I've found my life  
Without you now  
and I'd never mind  
I'm only half as blind  
'cause I needed more  
From you  
you say my reflection  
Never fades from your eyes  
Could change my direction  
But what I feel can't  
Disguise my reflection  
crushing me  
I won't die  
I've never cried  
But I needed more from you  
I've found my life  
Without you now  
and I'd never mind  
I'm only half as blind  
'cause I needed more  
From you
