

Amazing

Foxes

Do what you want
Do what you want

When I look at you the drums all start beating
And I just don't know if I'm ready or not, to do it all again

See, I've got a wild heart and
I can't control it
It keeps on letting me down

I know, with you, tonight could be amazing
Be amazing
I'm scared, to death, still I stood here waiting
Here waiting

Do what you want
Do what you want
Take a hold of me
Do what you want
Cause my heart keeps saying
Do what you want
That you're all I need, all I need

With a touch you bring me back to life, I'm rising
And I don't even know if I'll survive, but I'm all in

See, I've got a wild heart and
I can't control it
It keeps on letting me down

I know, with you, tonight could be amazing
Be amazing
I'm scared, to death, still I stood here waiting
Here waiting

Do what you want
Do what you want
Take a hold of me
Do what you want
Cause my heart keeps saying
Do what you want
That you're all I need, all I need

Should be running away tonight
Should be finding a place to hide
But I'm starting to feel alive
And I know, with you, tonight could be
[x2]

I know, with you, tonight could be amazing
Be amazing
I'm scared, to death, still I stood here waiting
Here waiting

Do what you want
Do what you want
Oh, my heart keeps calling me

Do what you want
Oh, my heart keeps telling me
Do what you want
Oh, my heart keeps telling me
Telling me
Do what you want
Oh, my heart keeps telling me
Do what you want
Oh, my heart keeps telling me
Do what you want
Oh, my heart keeps telling me
Telling me
Telling me

All I need
All I need
All my heart keeps saying now
