

Echo

Foxes

I can hear your thoughts
Please don't leave me now
I can't sleep alone
Chasing the light until the dawn

Thought we left a trail
Back to the way that it was
I can see it now
In your eyes you let it fall

Running in a crypt
Of a thousand words
Hiding in the dark
When the violence starts
Looking for a sign
That we've gone too far
(Too far)

Don't hide in the dark
Playing shadow games
Turn out the lights
Ooh ooh ooh ooh ooh
Time for a change
Cause the devil is sleeps in your head

Don't hide in the dark
Playing shadow games
Turn out the lights
Ooh ooh ooh ooh ooh
Didn't you say we would stay
Til we heard the last
Echo, echo, echo

Look into my eyes
Do you see something to defend
Spinning in the lights
Will I grow old before I die?
Silence is a curse
I feel it breaking the ice
I can see it now
In your eyes you let it fall

Running in a crypt
Of a thousand words
Hiding in the dark
When the violence starts
Looking for a sign
That we've gone too far
(Too far)

Don't hide in the dark
Playing shadow games
Turn out the lights
Ooh ooh ooh ooh ooh
Time for a change
Cause the devil is sleeps in your head

Don't hide in the dark
Playing shadow games
Turn out the lights
Ooh ooh ooh ooh ooh
Didn't you say we would stay
Til we heard the last
Echo, echo, echo

You got the beat inside
Turn out the guiding lights
The dark is on your side
You got the beat in

You got the beat inside
Turn out the guiding lights
The dark is on your side
You got the beat in
