

Intro / Bomb's Away

Foxy Shazam

Hear the sun crashing down from the sky
Darkness crawls coming in from all sides

That's it I quit
And all the targets have been hit
Our home, our vine
We'll all have vengeance time

Bombs away, bombs away
Little pieces of their bodies blowing in the wind
Bombs away

Bombs away, bombs away
Little pieces of their bodies blowing in the wind
Bombs away

I said bombs away

One, two, three, four, boom!
