

# Feel For Me

Foy Vance

Take my heart to your hand  
You think you can't but I know you can  
Swallow it whole like it's a pill  
Let it do the work that you know it will

And, on the moonlight, over time  
Let our blood run one, like holy wine, new wine

Feel for me babe, feel for me baby  
I'm on fire babe, on fire baby  
Feel for me babe, feel for me baby  
I'm on fire babe, on fire baby

Let me fill your soul like you fill mine  
Let it be this way till the end of time  
Draw me close to your breast  
Let us close our eyes and settle rest

On the moon light, over time  
Let our blood run one, like holy wine, new wine

Feel for me babe, feel for me baby  
I'm on fire babe, on fire baby  
Feel for me babe, feel for me baby  
I'm on fire babe, on fire baby

Well you know I wanna babe  
Feel for me babe, feel for me baby  
I'm on fire, on fire baby  
You know I wanna make you  
Feel for me babe, feel for me baby  
I'm on fire babe, on fire baby
