

# I Won't Let You Fall

Foy Vance

Well, you never were the one to say you need something  
Always done your worry on your own  
Then I came along and got you to wondering  
"Could I be the one to be the song?"

When you need me, darling (Need me)  
Your back's up against the wall  
All you do is call  
All you do is call  
When you need me, darling (Need me)  
To help you through it all  
I won't let you fall  
No, I won't let you fall

Lately I've been thinking 'bout time and how it used to feel  
When it was mine all mine, and all day long  
Now if ever you are alone and you need a heart to steal

I'll be here to listen on the phone

When you need me, darling (Need me)  
Back's up against the wall  
All you do is call  
All you do is call  
When you need me, darling (Need me)  
To help you through it all  
I won't let you fall  
No, I won't let you fall  
Oh, when you need me, darling (Need me)  
Your back's up against the wall  
All you do is call  
All you do is call  
Oh, when you need me, darling (Need me)  
To help you through it all  
I won't let you fall  
No, I won't let you fall
