

Wind Blows Chloe

Foy Vance

You gotta go where the wind blows, Chloe
You gotta go where the wind blows
You gotta go where the wind blows, Chloe
You gotta go where the wind blows
You gotta go where the wind blows, Chloe
You gotta go where the wind blows
You gotta go where the wind blows, Chloe
You gotta go where the wind blows

The dust rolls over in the morning sun
There ain't no telling where the dust is going
All we know is the dust gets gone
And we gotta go where the wind blows

You gotta go where the wind blows, Chloe
No need to slow when the wind dies down
Nobody knows where the wind blows Chloe
We gotta go where the wind blows

There's a jackdaw cawing in the northern sky
Looks like something might've caught his eye
Checks that wind 'fore he takes that flight
He gotta go where the wind blows

And you gotta go where the wind blows, Chloe
No need to slow when the wind dies down
Nobody knows where the wind blows Chloe
We gotta go where the wind blows

You gotta go where the wind blows, Chloe
You gotta go where the wind blows
You gotta go where the wind blows, Chloe
You gotta go where the wind blows

The ships that sail and the planes that fly
Know where they're going but they keep one eye
On the wind 'cause the wind decides
And we gotta go where the wind blows

And you gotta go where the wind blows, Chloe
No need to slow when the wind dies down
Nobody knows where the wind blows Chloe
We gotta go where the wind blows

You gotta go where the wind blows, Chloe
You gotta go where the wind blows
You gotta go where the wind blows, Chloe
You gotta go where the wind blows
You gotta go where the wind blows, Chloe
You gotta go where the wind blows
You gotta go where the wind blows, Chloe
You gotta go where the wind blows
