

Brides of Fire

Fozzy

A burning
She lives to deceive
A yearning
He tried to believe
A bleeding
The avenger of time
A feeding
The death bell will chime

Fire rains down on the world
It torches our dreams yet unfurled
The flames rising high burning bright
They're singing the edge of the night

Brides Of Fire

A passing
From here to the void
A trashing
Till all is destroyed
A longing
For all that is dire
A wronging
Unleashed brides of fire

Fire rains down on the world
It torches our dreams yet unfurled
The flames rising high burning bright
They're singing the edge of the night

Brides Of Fire

Just one desire from the darkness
Leading you to despair
One demon crawls up from the abyss
Dragging you down into her lair

Fire rains down on the world
It torches our dreams yet unfurled
The flames rising high burning bright
They're singing the edge of the night
