

Embrace Me

Fragma

You broke my resistance
And you tore the curtains down
I hardly seem to miss them
Since you tossed them to the ground
And I tried to resist I just cannot exist without your love
You're offering me assistance
For a mind that's spinning 'round
And I try to be strong I just cannot go on without your love

Embrace me - run your fingers through my hair
Embrace me - let me feel you everywhere
And when you face me - I see heaven in your smile
Now that look in your eyes and the sound of your sighs
Will make my life worthwhile
Embrace me

Just like a dream that's never ending
I'm so happy to give in
There's no need to complain 'cause it's all just in vain without your love
A broken heart in need of mending
And a game that both of us will win
Don't you take it away 'cause I really can't play without your love

Make me understand
Let me hold your hand
This is how it's planned
Let me feel you oh
Everywhere
