

Write It Down

Framing Hanley

Words unsaid sting the most
When I see the damage done
And I start living with a ghost
And if I fled I'd only run back to your door
I wanna keep my sanity
But I wanna keep you happy more
Maybe in a perfect life
We'd always see eye to eye
But if it's alright
I'd like to get this off my mind

Go and write it all down
I can take it back now
But you can't take back
The love that you and I both found
So just think that over
I'll be foolish for letting you fool
Foolish for letting you go

Counting kisses on one hand
What did I do?
I'm not quite sure
I must've messed this up again
But I won't say a word
Cause that will only make it worse
It's the same old melody
And it's the same recycled verse
In a perfect life
I'm sure we'd see eye to eye
But if it's alright
I'd like to get this off my mind

Go and write it all down
I can take it back now
But you can't take back
The love that you and I both found
So just think that over
I'll be foolish to let you go
I'm not letting you go
I'm not letting you go

Go and write it all down
I can take it back now
But you can't take back
The love that you and I both found
So just think that over
I'll be foolish to let you go
I'm not letting you go
