

## Bad Harmony

Frank Black

We don't know what we're talking about  
That's just words in our libretto  
I don't know if the some of our stretto  
Will end up a terrible shout  
We left the ground and we floated above this town  
That never got better  
We got drowned in the sea of love  
And I know that it's gonna get wetter  
Bad harmony  
We're like bad harmony  
We're a couple wannabe's  
Who do not know what they are doing  
We're like bad harmony  
We're like bad harmony  
We are good company  
Going down that road to ruin  
I hope we will better  
I hope we will better  
We don't know what we're talking about  
That's just words in our libretto  
I don't know if the some of our stretto  
Will end up a terrible shout  
Bad harmony  
We're like bad harmony  
We're a couple wannabe's  
Who do not know what they are doing  
We're like bad harmony  
We're like bad harmony  
We are good company  
Going down that road to ruin  
I hope we will better  
I hope we will better  
I hope we will better
