

I Could Stay Here Forever

Frank Black

See the scheming behemoth
Licking salt in their cave
Being together is their zenith
It's how they behave
Now we're hanging in tandem
Six trillion miles a year
How can direction be random
When you are so near
I could stay here forever
I could stay here forever
And I'm never bored with this all aboard
I could stay here forever
We've got some bills to pay
And when we pay them off
Maybe we'll get away
But if not, so what?
