

I Switched You

Frank Black

I was alone in my big bed those lonely nights I tried to reach
you
Your putting me on
Messed with my head but have you heard I'm going to teach you
You will find out that you miss my lovin' ways
But don't you know I switched you-switched you
I switched you
I switched you
I switched you
I hear that sound
That clickety-clack
That train returning who bewticked me
Now you're around you want to come right back
Forget about the way you ditched me
Now you found out that you miss my lovin' ways
But don't you know I switched you-switched you
Now you found out that you miss my lovin' ways
But don't you know I switched you-switched you
Messed my head messed my head
Why you going putting me why you going putting me why you going
putting me on?
T-t-t-tell me why
