Pray a Little Faster

Frank Black

Breath deep and fill your lungs In your native or in your second tongue Pig-Latin or pigeon Just get religion Pray a little faster Come on, pray a little faster Pray a little faster We got too far to run Forget about the girls and forget about the boys Turn off the TV and put away your toys You can't do what you want to do So get out your voodoo Come on, pray a little faster Pray a little faster Pray a little faster We got too far to run Pray to the trees, pray to the sun And if you don't believe, pray to the alien Look up to heaven, yeah And turn it upto 11 Come on, pray a little faster Pray a little faster Pray a little faster We got too far to run
