## **Planet of the Apes**

## Frankenstein Drag Queens from Planet 13

I crash my ship into the sea Oh my God, where could I be I swim to shore, what do I see A bunch of fucking monkeys Coming after me

Well I know I won't Make it home by tomorrow And I refuse to die on This planet of horrors

I know that there's no escape Here on this planet of the apes Get your paws off me You damn dirty ape Here on this planet of the apes

They take my pride and dignity And not mention, my voice from me But they don't realize until I say Get your paws off me you damn dirty ape
