

If The World Would End

Frankie J

I woke up this morning with this question on my mind
What if we were running out of time?
And the world was ending
All my working moments came flashing before my eyes
And all I could think was what's the use of over time
Why? Why did ... why did I
I could have gone home when I had the chance
Spend more time ... you and me
Turning the romance into memories

Since I'm gonna spend more time on you
A wise investment paying ... and through
And I would be so rich in love with you
There be no regrets bout money I can't say
I wouldn't care if the world would end

The ... set this moment because I made up my mind
Had to catch up cause I was so far behind
So I brought a dozen roses and brought breakfast to the bed
Kissed the lips upon your pretty sleepy head

Now I'ma love you this, I'ma gonna do that
Make the best of moments we'll ever have
Laugh into ... the of you and me
Filling it up with loving memories
Cause now I'm gonna spend more time on you
A wise investment paying ... and through
And I would be so rich in love with you
There be no regrets bout money I can't say
I wouldn't care if the world would end

I'ma put you first in line and let our love each life I'm whini
ng
Watch it keep getting better with time
So I'ma give you mine

Cause now I'm gonna spend more time on you
A wise investment paying ... and through
And I would be so rich in love with you
There be no regrets bout money I can't say
I wouldn't care if the world would end
But I wouldn't care, I wouldn't care
Cause I know you'd be there
