

Inside You

Frankie Valli

Just to know you is to love you
Feel the rush just thinking of you
I come alive each time we touch
And I'm alive you were so much
Inspiration from your fire
Sets my soul a little higher
Angels sing and often do
Inside you
I've been crying since that day
Inside you
If she wasn't sure of what she said
Not a blessing word in everything
That I have been taught to
Inside you
Wonder how I ever won you
Can't believe it's me you've come to
If nothing else I think it's right
At least with you I've lived my life yeah
The world might get us if we let them
I swear to God I said "forget them"
I've found a piece of solitude
Inside you...
