

# Call to Arms

Frankmusik

Just tear me apart come on throw me away  
And do your worst  
Whats the point in a heart seems there's nothing to gain  
To break the curse  
When I'm down on my luck I can get fucked up  
Day or night just lose my way  
Till I find myself

Call to arms call to arms  
Life has spoken  
Carry on carry on  
Take the moment

What say you you you woah  
What say you you you woah

So I stumble and fall now you watch me crawl back to earth  
With my pennies and dimes still on my grind but whats the worth  
Cos' when I'm down on my luck I can get fucked up  
Day or night just lose my way  
Till I find myself

Call to arms call to arms  
Life has spoken  
Carry on carry on  
Take the moment

What say you you you woah  
What say you you you woah

We're all holding onto dreams by a thread that we can't let go  
You're either with me or against me baby but I thought I'd let you know

Call to arms call to arms  
Life has spoken  
Carry on carry on  
Take the moment

What say you you you oh  
What say you you you you

What say you yeah  
What say you

Baby call to arms call to arms  
Life has spoken  
Just carry on carry on  
Take the moment

Waht say you  
Yeah  
What say you  
Woah  
What say you  
Mmmmm  
Ooh
