

Call Your Name

Frankmusik

I'm tired of my life
With you somewhere in it
With you somewhere in it
And I can't describe
How I want you finished
Yeah, I want you finished

There's a gun to my head
And I know whose fingers' on the trigger
And if you want me dead
Oh, I'd only make your promise bigger, oh

Where you go 'round when you feel the rain?
Where you go 'round when they bring the pain?
Where you go 'round when they call your name?
Call your name, call your name
Where you go 'round when you feel the rain?
Where you go 'round when they bring the pain?
Where you go 'round when they call your name?
Call your name, call your name

Now I have you in my hands
I won't let you go this time
You won't change my mind, no
So tell me who do you think you are
Now there's nothing left to take
To fill your [?]

Where you go 'round when you feel the rain?
Where you go 'round when they bring the pain?
Where you go 'round when they call your name?
Call your name, call your name
Where you go 'round when you feel the rain?
Where you go 'round when they bring the pain?
Where you go 'round when they call your name?
Call your name, call your name

I can only tell the truth
Far past every lie
Almost lost my mind
Take my money, waste my time
Long for my mistakes
But see, I'm just doing fine

Where you go 'round when you feel the rain?
Where you go 'round when they bring the pain?
Where you go 'round when they call your name?
Call your name, call your name
Where you go 'round when you feel the rain?
Where you go 'round when they bring the pain?
Where you go 'round when they call your name?
Call your name, call your name

Call your name, call your name
Call your name, call your name
Call your name
Call your name, call your name

Call your name, call your name

Call your name

What you're gonna do when they call your name?
