

# Going Under

Frankmusik

We tried but we couldn't help it  
Old news and the same old hits  
No, I can't take the way you look at me  
Locked into your gaze it's hard to breathe, to breathe

Another night, another fight  
We're going under, going under, going under, going under  
Another night, another fight  
We're going under, going under, going under

And girl, your love's a fire starter  
Just hold me deep down underwater  
I can't stop the heat, we're going farther  
Oh no, I can't stop the heat, it's getting hotter

Another night, another fight  
We're going under, going under, going under  
Another night, another fight  
We're going under, going under, going under

Another night, another fight  
We're going under, going under, going under  
Another night, another fight  
We're going under, going under, going under
