

How can I hold on if there's nothing left
Can you feel this void that is this hole in my chest?
'Cause I got nowhere to run or hide
When this pain is deep inside
And now you know I hope we stand the test of time

Baby, we are gold
It's the reason we're alive
Baby, we are gold
Something that we can't describe
Baby, we are gold
We're the ones who can show them how it's done
That's why we're told
About ready to explode

Baby, we are gold
Now we know, now we now we know
And yeah, baby we are gold
Now we know, now we now we know
And yeah, baby we are gold
Now we know, now we now we know
And yeah, baby we are gold
Now we know, now we now we know

And you wanna be the strength that slipped away from me
And get us a little closer to our destiny
And every day I seem to show
That I can do this on my own
Never to blame

Baby, we are gold
It's the reason we're alive
Baby, we are gold
Something that we can't describe
Baby, we are gold
We're the ones who can show them how it's done
That's why we're told
About ready to explode

Baby, we are gold
Now we know, now we now we know
And yeah, baby we are gold
Now we know, now we now we know
And yeah, baby we are gold
Now we know, now we now we know
And yeah, baby we are gold
Now we know, now we now we know

You say that we're golden, golden
I hope that we're golden, golden
You say that we're golden, golden
That's why I'm holding on
You say that we're golden, golden
I hope that we're golden, golden
'Cause that's why I'm holding on

Baby, we are gold

Now we know, now we now we know
Now we know, now we now we know
Now we know, now we now we know
Now we know, now we now we know

Yeah, baby we are gold
Now we know, now we now we know
Baby we are gold
Now we know, now we now we know
And yeah, baby we are gold
Now we know, now we now we know
Baby we are gold
Now we know, now we now we know
