

# Ground

Frankmusik

You lay down  
Silence in the background  
I bend down  
I kissed you from your head to your feet on the ground

Your hand between my fingers  
Skin it just feels like it's being touched  
For the first time  
Don't you walk away when you know that  
You're all that I crave  
Tasting [?]  
I don't want nothing but you, but you

You don't need, you don't need, you don't need  
You don't need to be shy  
I got you, I got you, I got you, yeah  
Think we'll be fine  
Even at a distance you serve my soul  
I show no resistance cause you got me whole

You lay down  
Silence in the background  
I bend down  
I kissed you from your head to your feet on the ground
