

High on You

Frankmusik

I'm on cloud nine when I'm with you
You take me for a ride
Going out of my mind
I've never felt this good
It's all I think about
All that I wanna do

I'm high up on you
I'm high up on you
Want to never get down
To never get down
I'm high up on you
I'm high up on you
Want to never get down
Like we're falling without a sound

When I think of us
Everything I touch, it turns to gold
What have you done?
Feelings getting hotter now, temperature overload
Now I'm losing all control

I'm high up on you
I'm high up on you
Want to never get down
To never get down
I'm high up on you
I'm high up on you
Want to never get down
Like we're falling without a sound

Down, down, down
Fall down, down, down
Babe you are all that I see now
Give me love or leave
All your sweetest stuff
Put me back, back down on this side of ground

You're all I think about
You're all I wanna do

I'm high up on you
I'm high up on you
Want to never get down
To never get down
I'm high up on you
I'm high up on you
Want to never get down
Like we're falling without a sound
