

# I Remember

Frankmusik

[x2]

I remember times  
Stupid little dramas  
They consume my mind  
Now's there only left uh

I couldn't see what we had, I was broken  
Once before, it was hard, unspoken  
Hidden in the darkness  
Looking for that first fix to pull me out  
It's better now

Feelings getting stronger  
I no longer wonder  
What results from you and I  
And now the pages getting thicker  
Look into the mirror  
Now I start to come alive

[x4]

I remember times  
Stupid little dramas  
They consume my mind  
Now's there only left uh

Would've gave, given you, baby anything  
Want to see how, just how deep our love could be  
Has to show me many hearts  
But too many low lows is nothing like  
What happens now?

No longer alone  
Baby make me feel whole  
This is how supposed to be  
It's always been here since the first night  
Had you make it so bright  
Maybe it's our destiny

[x2]

I remember times  
Stupid little dramas  
They consume my mind  
Now's there only left uh

Left uh [x7]

I remember times  
I remember times  
Stupid little dramas  
They consume my mind

We did it together  
We did it together (I remember times, stupid little dramas)  
We did it together (I remember times)  
We did it together (they consume my mind)
