

# Into the Sun

Frankmusik

I'm sorry but I gotta level with you now  
I'm a million problems you won't figure out  
'Cause nothing ever really seems to come my way  
But I shoulda told you the very first day

I say it like I mean it  
Not hide it like a secret  
How'd I even ever fall this hard?  
I say it like I mean it  
And hope that you believe it  
How'd I even ever get this far?

I can't believe the things that I find  
Breaking the [?] till I've won  
[?] ain't fun  
You'd probably rather stare at the sun  
I got the [?]  
There's no competition when you're this cold  
This ain't the way I wanted to go  
But this is just the life we chose

Cannot take the credit for your misery  
For it's an accolade that's really hard to beat  
And I know it's something that I seem to do so naturally  
But did you know that you were always free to leave?

[?]  
I'm sorry it's remaining  
But that's just the way my path line seems to go  
You be the hero  
And I'll stay the zero  
'Cause we know we'll never count on me, so

I say it like I mean it  
Not hide it like a secret  
How'd I even ever fall this hard?  
I say it like I mean it  
And hope that you believe it  
How'd I even ever get this far?

I can't believe the things that I find  
Breaking the [?] till I've won  
[?] ain't fun  
You'd probably rather stare at the sun  
I got the [?]  
There's no competition when you're this close  
This ain't the way I wanted to go  
But this is just the life we chose

That's the life you chose

I say it like I mean it  
Not hide it like a secret  
How'd I even ever fall this hard?  
I say it like I mean it  
And hope that you believe it  
How'd I even ever get this far?
