

Made Her Smile

Frankmusik

I knew a girl once
That looked like you
And she didn't eat much
Like you too

She cut up her favourite magazines
To be like all those celebrities
But it made her smile
For a while.
But it made her smile
For a while

I know a girl that dressed like you
She drank too much
Like you do
It made her smile,
For a while
But it made her smile
For a while

It let the feelings deep inside
And you would never see her cry
Well all the dust up her nose
Hoping that her pain would go
Wishing for an alibi
To make it easier
To hide

But it made her smile
For a while
But it made her smile
For a while
'Cause it made her smile
Made her smile made her smile
For a while
