

# Never Left

Frankmusik

I hold my breath and count to ten  
Will I see, see you again?  
An empty hand is an empty heart  
There's no wind when you're my star  
When you're my star  
My time goes slow, it's you I long  
Am I on hold or holding on?  
Cause many folks have ran and gone  
But you came back to prove them wrong  
To prove them wrong

Oh, woah woah  
It's like you never left me now  
Woah woah  
It's like you never left me now  
Woah woah  
It's like you never left me now  
Woah woah  
It's like you never left me now

Lost in calm, it's strange to see  
We fall back in entropy  
Lots so tied we're thick as thieves  
There's nowhere else I'd rather be  
You showed me light where there was none  
Your point I love to watch the sun

Oh, woah woah  
It's like you never left me now  
Woah woah  
It's like you never left me now  
Woah woah  
It's like you never left me now  
Woah woah  
It's like you never left me now

Oh, don't you know, don't you know  
It's like you never left me now  
Woah woah  
It's like you never left me now  
Woah woah  
It's like you never left me now  
Woah woah  
It's like you never left me now
