

Say Goodbye

Frankmusik

I feel I'm getting closer
It's something that my body knows
But the signs they coming from my head
It's from narrow in my bones
Take my hand, I swear we'll make it
One last time we gotta try
There's a place that's on my mind

We gonna say goodbye
Say goodbye to this city
We gonna say goodbye
Say goodbye and we'll mean it

You won't see me on the street
With the lonely faces that I'll never meet
A cannonball through the sky
My imagination at the speed of light
And now I aim for the [?]
Wanna lean right next to you when [?]
Every building in my way
Help me to escape
Come on, babe, take me far away

Oh, where nobody knows my name
Oh, we won't have to be the same
Baby, we're almost there
Baby, we're almost there
Baby, we're almost there
Yeah, yeah
Yeah, yeah

We gonna say goodbye
Say goodbye to this city
We gonna say goodbye
Say goodbye and we'll mean it

Counting on the future
Packing every bag
Taking all the money
Cause we ain't coming back
I don't know where we're going
But we don't even mind
There's something soft and pretty
Then leave it all behind

We gonna say goodbye
Say goodbye to this city
We gonna say goodbye
Say goodbye and we'll mean it

We gonna say goodbye
Say goodbye to this city
We gonna say goodbye
Say goodbye and we'll mean it
