

Secret Weapon

Frankmusik

You got me on, got me on the run
I never loved til this begun
You see that I'm trying while I'm denying
Your love's got me left kinda sprung
It's something I can't lose
I'm too busy dreaming, too busy dreaming
So please don't make me choose
Cause there's nothing I can do

Now I'm falling
You got me calling

What's your secret weapon?
I need to know
What's your secret weapon?
I need to know

I was blind but you made me see
Illuminations of you and me
With moments fading, never want praying
This is what it seems
And if my heart just drops
From all that I'm feeling, all that I'm feeling
So please don't make it stop
Cause you're all that I have got

Now I'm falling
You got me calling

What's your secret weapon?
I need to know
What's your secret weapon?
I need to know

What's your secret weapon?
Cause I need to know

What's your secret weapon?
I need to know
What's your secret weapon?
Cause I need to know
