

# A Closer Walk

Fred Hammond

There's none greater  
Now or later  
This I know  
Lord of mercy  
Light my pathway  
Make me whole

Just a closer walk with thee  
Cause your love will make the difference in me  
There's no place I'd rather be  
Than beneath your wings of serenity, oh

So prone to stray  
Hold me tightly  
Don't let go  
Shepherd lead me  
Guide me daily  
I am yours

Just a closer walk with thee  
For your love will make the difference in me, oh  
There's no place I'd rather be  
Than beneath your wings of serenity

Don't let go

On my own  
Life for me  
Wasn't getting better, oh  
When your love  
Captured me  
I was found forever  
So with every

Every step lord I take  
Closer and closer, closer and closer  
With every beat my heart makes  
Lord when you hear it may it sound like your own

Every step lord I take  
Closer and closer, closer and closer  
With every beat my heart makes  
Lord when you hear it may it sound like your own

There is no living life Lord without you  
No joy is found only sadness  
Instead of peace there is sorrow  
No quiet calm only madness  
Without you, Lord without you  
Without you, Lord without you
